

COURSE: PowerBI JUMPSTART - build an executive dashboard in eight hours

The *PowerBI Jumpstart* is a one-day hands-on workshop focused on quickly educating users how to create their first report and build an executive dashboard in PowerBI by importing data from multiple sources, preparing an analytical model, write formulas and publish the content to PowerBI Service, ready for sharing. It also allows attendees to explore report interaction and evaluate all capabilities of the product from end user's perspective.
